

# Hoof trimming chutes: resource 101

## Hoof trimming chutes: the asset to get job done

Lame cows can be frustrating and hoof trimming them a chore. For milking the cow, we use nice parlor facilities or milking robots. Obviously, the milk is what we get paid for and it is a reoccurring job, which should be easy. But what about hoof care?

**The sooner we get the lame cow looked after, the better the success!**

As a professional trimmer, we use chutes to get the job done safe and professional. Below we provide you with an overview of the various hoof trimming chutes available in our North American market. They are put in alphabetical order by name for easy reference.

Note: chutes are also referred to as hoof trimming stalls or hoof trimming crushes.

### Alphabetical Index

Here's an overview of the different hoof trimming chutes covered in this article.

#### Dr. Hoof

Appleton Steel

Comfort Hoof Care

Custom Chutes

KVK Hydra Klov

Mid Valley Chute

#### Paul's Hoof Chute

Real Tuff

Riley Built

Tuffy Tilt

Wopa

Zimmerman
