Hoof trimming chutes: assets that get the job done

I think we can all agree that lame cows are a source of frustration and anxiety. Besides, hoof trimming is quite the chore. When we milk our cows, we get help from neat parlour facilities and milking robots. It is a routine job and having technology at our disposal makes it easy. But what about hoof care? **The sooner we give lame cows proper attention, the better our chances of success!** Can we get help here? Of course. Professionals know that using hoof trimming chutes gets the job done safely and expertly.

Below is an overview of the various hoof trimming chutes available in North America.

Note: chutes are also referred to as hoof trimming stalls or hoof trimming crushes.

Dr. Hoof

Appleton Steel

Comfort Hoof Care

Custom Chutes

KVK Hydra Klov

Mid Valley Chute

Paul's Hoof Chute

Real Tuff

Riley Built

Tuffy Tilt

Wopa
